Updated Exam Policy, Fall 2026

OVERLAP EXAM

An overlap occurs when a student has two or more examinations scheduled at the same date and time. Students must report any overlap exam to the Department Head or Examination Committee within a specified timeframe after the exam schedule is published. A formal application is usually required and the exam committee will verify the claim before granting permission for an alternative arrangement. A separate question paper will be used to maintain confidentiality and fairness of overlap exam. Students must comply with all exam rules during the alternative sitting, and academic integrity policies strictly apply.

Medical Emergencies

- Students who suffer sudden illness or medical emergencies during an examination may be granted special consideration upon submission of valid medical certificates from a recognized healthcare provider.
- Such students should notify the invigilator immediately during the exam, or as soon as possible after the incident.

Bereavement or Other Extenuating Circumstances

- In cases of bereavement or other significant personal hardships that impact a student's ability to attend or perform in examinations, students may be allowed to sit for Improvement examination in case of Final Examination.
